

Working with MySQL DB instance using AWS RDS

coursera.org/learn/mysql-aws-rds/ungradedLti/BDxG6/working-with-mysql-db-instance-using-aws-rds

Now we will create, connect & delete a MySQL DB instance using AWS RDS. We will accomplish it by completing each task in the project:

- Create a security group
- Creating a MySQL DB instance
- Connecting to the DB instance via MySQL client
- Populating data on the database
- Terminating MySQL DB instance
